

THE MOUNTAINS OF QUILT

A magpie brings Grandmother the last bit of cloth she needs for her quilt; unfortunately, the cloth happens to be a magician's miniature flying carpet. Willard's delicate yet beguilingly down-to-earth prose is illustrated with wit and good humor, in a style consciously childlike in its simplicity, with lots of white space and eccentric borders that seem to pay homage to crazy quilts.--Kirkus Reviews. Full-color illustrations.

Reader's Opinions

Tomie de Paola uses a different style than most of his books, which is nice, but the pages are still a bit too empty. The story is odd, maybe not all...

There's a magician that lives in a mountain that nobody could see only his friends the magician's and their is an old lady that lives in the bottom of the mountain of the magician. She doesn't now that the magician lives up of her mountain. I recommend to a second or third graders.
